Welcome to Grady Joinery

Thank you for taking time to look at our brochure.

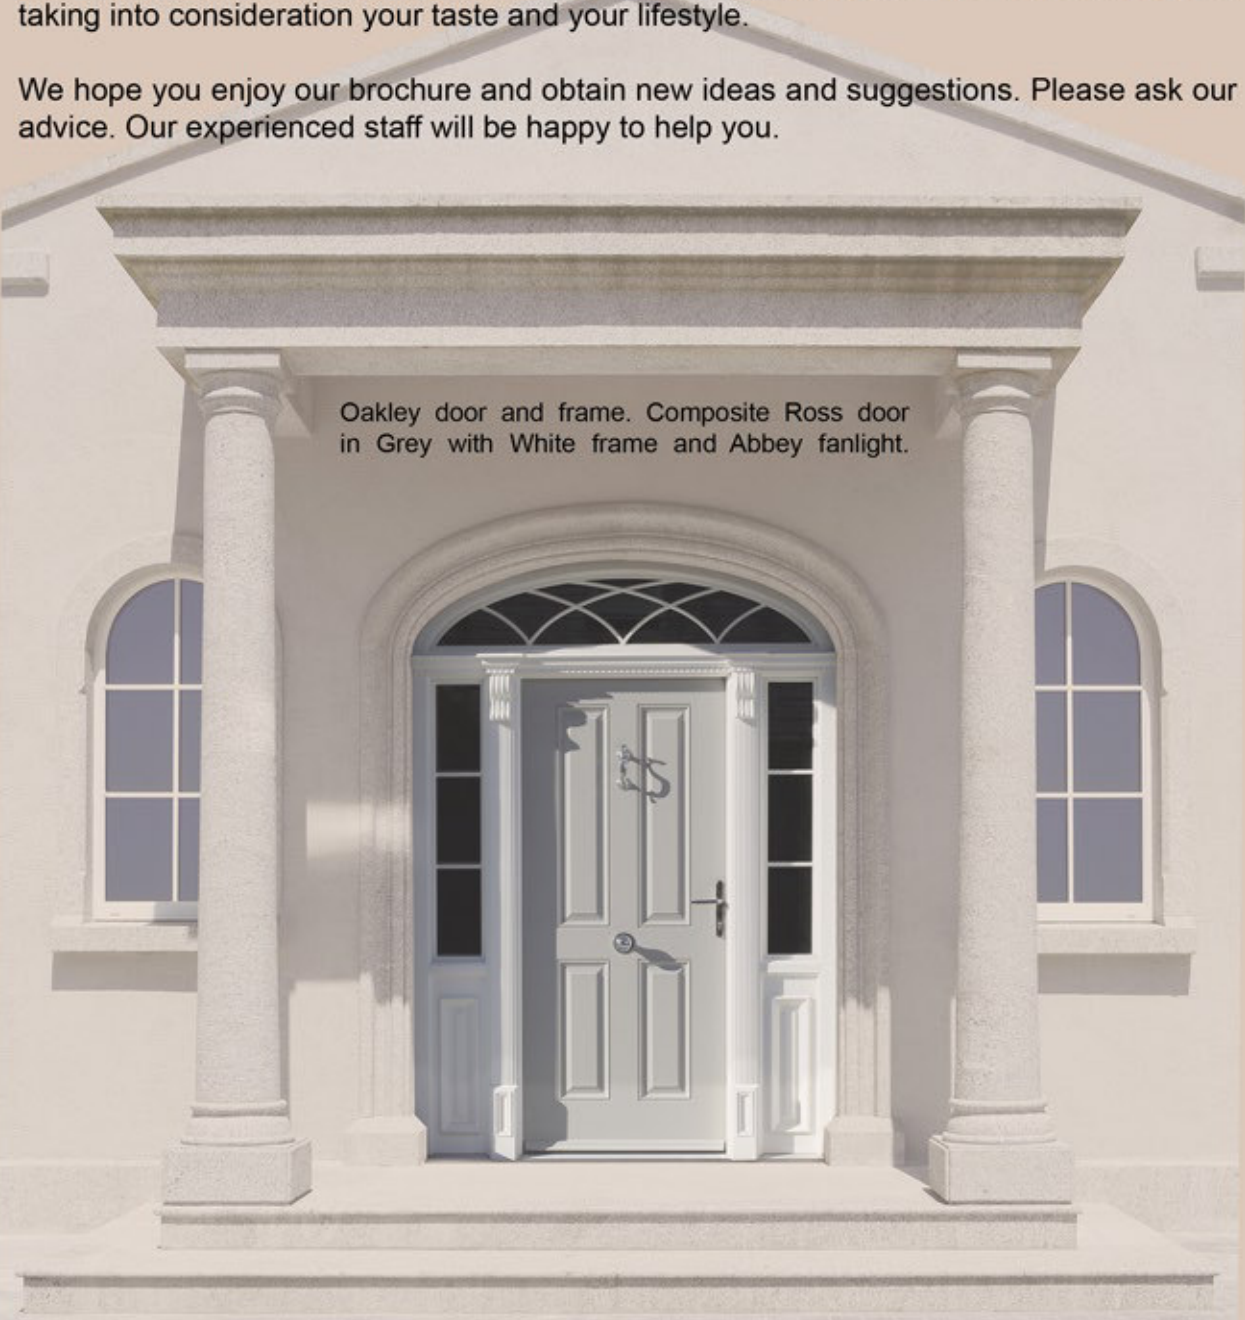

We have selected many beautiful images here and we also have an extensive gallery on www.gradyjoinery.com. You are invited to visit our showroom in Charlestown, Co. Mayo, or in Maynooth, Co Kildare for Dublin and the surrounding areas.

Grady Joinery is a family run company with head office at its original site in Co Mayo. We work throughout Ireland on projects ranging from new build houses, retrofit projects and large scale developments.

Since 1979 we have built a strong reputation for premium products. We are proud to state that much of our business is driven by return customers, who trust the performance of our products and our after sales service.

Our aim is simple: To provide you with the most suitable products for your own homes, taking into consideration your taste and your lifestyle.

We hope you enjoy our brochure and obtain new ideas and suggestions. Please ask our advice. Our experienced staff will be happy to help you.

Oakley door and frame. Composite Ross door in Grey with White frame and Abbey fanlight.

Signature Oakley Door & Frame

The Oakley frame creates a first impression that lasts, adding that luxurious touch to your front door. Designed and carved in our joinery in County Mayo, the hardwood frame is hand crafted with high quality materials and skilled craftsmanship. Chose your favourite design.

We offer a range of glazing features.

French Doors

Whether you need to update an existing patio door or bring new life to an area of your home, our French doors will suit the needs of modern day life. These uPVC doors are available in double or triple glazing and a selection of colours.

Offering the ultimate in weatherproofing and insulation with high security hook bolt locks and internal glazing our doors will make you feel secure and cosy in your home.

Light and Space

Capture the feeling of more light and space in your home. Our French doors create the perfect setting to enjoy those summer evenings and to bring your garden closer to the heart of your home.

Single Door Options

Hollybrook composite door in Grey Blue with Slate Grey windows.

uPVC French doors and windows in Cream.

The simple clean lines of a uPVC back door with the right amount of glass incorporating high security hook bolt locks and low level threshold make the uPVC door a very practical and secure door for any house.

Cream uPVC door with sheeted panel and Georgian style glazing.

Versatile Designs

The uPVC back door allows us to adjust the glass size achieving the right amount of light to brighten up your home.

A combination of glass types and reinforced panels with internal beading makes this a strong and secure door.

We offer a choice of colours to suit your taste making an extremely durable product requiring little maintenance.

Solid & Functional

Energy efficient

Bi Fold Door

OPEN YOUR HOUSE TO THE GARDEN

The versatile opening options of the bi fold door provide the ultimate approach for those choosing to open up the room completely. These doors incorporating the very latest in aluminium technology are comfortable to use and offer a life time of smooth operation.

Exclusive Elegance

The High Performance Lift & Slide Door

WELCOME THE DAYLIGHT

The Lift & Slide door allows us to incorporate very large panes of glass to capture the view.

The thermal aluminium frames and triple glazed units offer the ultimate in weather resistance and durability to suit Irish conditions.

Our Lift & Slide is produced in a range of sizes and designs to meet the most demanding projects.

This door offers you the complete package, outstanding weather proofing, ultra smooth operation and engineering to ensure a lifetime of enjoyment and piece of mind.

Windows

Room with a view

At Grady Joinery we work closely with our customers, whether you are looking for a contemporary design with modern architectural features, or a more traditional style house. Our experienced surveyors will work with the plans drawn up and guide with practical advice on designs and compliance with regulations.

Windows

Our uPVC casement windows are the ultimate in style and innovation, offering certified A-Rated Energy Efficiency with high security and durability. From a choice of modern and traditional colours, we will design a window that matches the character of your home and help you to meet the requirements of today's improved building regulations.

Room with a view

Change your view and add more light and space to your home. An ideal solution for extensions or renovations could be a bow window or a large casement window.

Sliding Sash Windows

Sliding sash windows have a unique appearance that bring a certain character to any building.

Our uPVC sliding sash windows offer the style and elegance of traditional timber frames with the benefits of modern energy efficient materials. Enhanced security, energy efficiency, low

maintenance and durability make our uPVC sliding sash a brilliant solution for combining the elegance of old-world design without compromising on insulation and performance.

Traditional Charm

The classic traditional designs can be replicated to look brilliantly authentic and the uPVC white woodgrained finish will require little maintenance.

Replacement

CHANGE YOUR WINDOWS AND DOORS RETAIN THE CHARACTER OF YOUR HOME

When embarking on replacement windows and doors there is a lot to consider. We can advise you on the best layout, colour and glazing option to ensure your home is well protected for many years to come.

Our team are happy to discuss your requirements and generate a guideline quotation for you. You can determine a budget that best suits your needs, quickly and without fuss.

Once you have decided what you would like to upgrade, our experienced surveyors will be on site to record final measurements, before the windows and doors are manufactured. When they are ready, we will contact you to confirm a fitting date.

The fitting of replacement windows is very important. At Grady Joinery we believe there is no substitute for attention to detail.

NEW WINDOWS WILL IMPROVE THE SAFETY AND SECURITY OF YOUR HOME

gradyjoinery.com/get-a-quote

Our site survey, taking manufacturing sizes, is very precise and thorough. This gives our fitters the best platform to do a good job and achieve a quality finish.

Grady Joinery employs fitters who are skilled and experienced in the replacement of windows and doors. The installation process is structured to create minimal disruption to the household. Protective covers are laid down and the old frames very carefully removed. After the new windows are fitted and sealed, any plaster or woodwork disturbed in the process is made good, followed by a thorough tidy up of the work area.

All the old frames are taken away for recycling. So you can begin enjoying the benefits of your new windows and doors straight away.

Bespoke Hardwood

Timber Doors

We offer hardwood doors in various styles and glazing options, fully finished from our broad range of colours.

The timber we use is engineered and modified to enable us to craft a high quality product.

Our bespoke products feature an extra heavy door and frame with integrated rigid threshold, high security multi point locks, insulated glass and panels, all combine to make a very durable, efficient and airtight door.

Timber door in Steel Blue.

Merrion hardwood door with panel in Agate Grey.

Brighton hardwood door in Yellow.

Large Scale Developments

Grady Joinery is involved in a large amount of repeat business with building companies who have trusted and relied on our genuine approach to design, installation and provision high quality service from start to finish.

We have not forgotten about the smaller projects that helped us to grow our business from humble beginnings. Let the project be a large-scale development or a replacement front door we are confident we have the right people to do a really good job.

Thank you for taking the time to look through our brochure. Tell us your ideas and we will combine them with our expertise to create your dream home.
